With more than 25 years of experience in hardware and software development **RT-Systemtechnik GmbH** is one of the leading electronics OEMs in the vehicle and special vehicle construction as well as in the agricultural and construction machinery sector. Our core competence is the development and series production of operating and control devices as well as camera systems. Shape the future of the agricultural and construction machinery industry with us and become part of our team.

## We are hiring:
# App developer (m/f/d)
## Apps for machine control

**Your tasks:**
- Planning and design of native, hybrid or cross-platform applications
- Integration of the solutions into existing and future structures
- Design of intuitive operating concepts

**Your skills:**
- A completed degree in computer science or several years professional experience as an application developer or a comparable qualification
- Practical experience in development for iOS / Android systems
- Sound knowledge of using various development tools and version management (git) is mandatory
- A broad technical understanding
- Recognition of problems, their independent and solution-oriented processing
- You find it easy to communicate in English
- Strong communication skills, the ability to work in a team and initiative round off your profile

**What awaits you:**
- Family-run company with a positive work environment
- Independent, diverse, and responsible work in a future-proof and rapidly growing industry
- Personal and professional development opportunities
- A modern and bright work environment
- Flexible working hours
- Attractive benefits, from complimentary beverages to, e.g., a „business bike" and „Edenred" membership

Is this position a good fit to you?
We look forward to receiving your application as a PDF:
